AMERICAN PERC-RITE®

RESIDENTIAL SEPTIC TANK EFFLUENT DRIP DISPERSAL SYSTEM

The **PERC-RITE®** system features disc filtration, time dosing, low rate drip distribution tubing, zone dosing, and flow measurement for long term trouble free performance.

APPROVAL FEATURES:

- SEPTIC TANK EFFLUENT
- SHALLOW INSTALLATION DEPTH
- 18" VERTICAL ISOLATION TO LIMITATION
- 24" MIN TOTAL SOIL DEPTH
- UP TO 25% SLOPE
- STANDARD SIZING
- CALC TOOL DESIGN ASSISTANCE

PENNSYLVANIA D.E.P LISTED SINCE FEBRUARY 2004

PERC-RITE® is a unique fluid handling system for the dispersal of septic tank effluent wastewater into soil. The system incorporates filtration, time dosing and low rate drip distribution tubing. In conditions where aerobic dispersal; such as low pressure distribution of septic effluent, is required or where land application with the use of conventional soil absorption fields is not acceptable **PERC-RITE®** offers a method for subsurface & surface dispersal of the wastewater.

<https://www.dep.pa.gov/Business/Water/CleanWater/WastewaterMgmt/Act537/OnlotDisposal/Pages/OnlotAlternateTechnologyListings.aspx>

PERC-RITE® drip dispersal systems provide a user friendly operator interface. Each mechanical component has a Hand-Off-Auto switch which may be used to manually override and test component operation.

PERC-RITE® control panels may also be equipped with optional equipment including blower and treatment system pump controls. Remote alarm notification, monitoring and remote control is provided as an option.

CONTROLS

American Manufacturing Company, Inc. can design and build almost any onsite wastewater or water system control panel. Our staff is comprised of professional engineers, designers, soils scientists, and technically trained sales people with extensive experience in control systems.

Our objective is to provide reliable, economical, and efficient control device for fluid handling. We inventory many standard control panels and are able to manufacture special panels in a very timely manner due to our modular design and manufacturing methods.

PACKAGES

American Manufacturing Company, Inc. manufactures many specialty On-Site Wastewater system packages including Recirculating Sand Filters, pump stations and the **PERC-RITE®** drip dispersal system. American can also fabricate skid mounted pump and control systems, test them in house and ship the complete assembly ready for installation.

CATALOG

American Manufacturing Company, Inc. manufactures many specialty On-Site Wastewater products including the Bull Run™ Valve, Dial-A-Flow™, Cool Guide™, and Poly Distribution Boxes.

If you need a product or information not shown in our catalog or on our website please contact our sales or engineering team and we will do our best to get you what you need.
